Negocio estratégico de fabricación de armas y municiones

La fábrica de Armas y Municiones, situada a sólo tres horas al noroeste de Bucarest, es un activo estratégico poco común. Antiguamente una de las mayores instalaciones de Europa, su verdadero valor reside no sólo en su infraestructura, sino en su construcción, zonificación y licencias, activos que tardarían años en reproducirse. Junto con los permisos operativos de nuestra corporación, esto nos permite iniciar la producción inmediatamente, simplemente mejorando el equipo y activando la instalación.

En el panorama actual de la defensa, en rápida evolución, la modernización de las armas y el armamento es fundamental. Nuestro enfoque garantiza que las fuerzas armadas tengan acceso a la tecnología y el armamento más avanzados, lo que proporciona una ventaja estratégica decisiva. Aprovechando estas instalaciones, aceleramos la comercialización, reducimos los gastos de capital y atendemos una demanda mundial creciente, al tiempo que reforzamos la seguridad nacional y regional.

Mientras los fabricantes heredados de Estados Unidos, Reino Unido y Asia luchan por satisfacer la demanda mundial sin precedentes de municiones y armas, un grupo de hombres de negocios y empresarios con sólidos antecedentes militares está reactivando una de las instalaciones de fabricación de armamento más grandes del mundo, situada estratégicamente en Europa del Este.

Ubicación

Las instalaciones de Armas y Municiones están estratégicamente situadas a 450 km de la frontera ucraniana, en una zona recientemente urbanizada. Se encuentra a 60 km de la base de la OTAN más cercana, en un ramal ferroviario y cerca de una bifurcación del río Danubio. Su proximidad al Danubio proporciona un rápido acceso al Mar Negro y a las infraestructuras cercanas adyacentes a los aliados de la OTAN, lo que ofrece importantes ventajas logísticas y estratégicas.
